

Ecoconnect Services - Corporate Profile

Building the Capabilities Behind the Energy Transition

Ecoconnect Services is an execution-focused company enabling the transition towards clean energy and sustainable mobility. We work at the intersection of Skilling, Simulation and Services to help industries adopt and scale emerging technologies.

Our Three Capabilities

- Skilling: industry-ready talent through practical, industry-aligned training.
- Simulation: engineering, validation and technical support across energy tech.
- Services: project execution, operations, maintenance and deployment.

Sectors

Electric mobility, commercial vehicles, renewable energy, battery energy storage systems, power electronics and digital infrastructure.

Impact

120+ projects delivered | 14 states covered | 60+ industry partners |
8,500+ professionals trained
